2. The above rule is subject to changes, dependent on season, which will always be notified.

The Commissioner shall be at liberty to take the steamer for his tours of inspection to Noakholly, Kutubdia, Cox's Bazar, and other places only approachable by sea. On such occasions, the weekly trip to Rungamattée will be suspended, due notice being given to the public beforehand.

I.—The master of every vessel on board of which there is, either among the passengers or crew, any case of cholera, small-pox, or other epidemic disease common in India, shall report such case or cases to the pilot or other boarding officer at the earliest opportunity; or in the absence of a pilot or other boarding officer, shall hoist a signal, which shall be, during the day, flag R of the Commercial Code at the main, and during the night two lighted lanterns, one over the other, at the fore.

The 12th June 1884.—The following amended rules for the medical inspection of vessels are issued for the guidance of Port Officers, Pilots and Medical Officers of Ports by the Lieutenant-Governor of Bengal, with the previous sanction of the Governor-General in Council, and they will take effect from the 1st July 1884 in the Port of Chittagong:—

I.—The master of every vessel on board of which there is, either among the passengers or crew, any case of cholera, small-pox, or other epidemic disease common in India, shall report such case or cases to the pilot or other boarding officer at the earliest opportunity; or in the absence of a pilot or other boarding officer, shall hoist a signal, which shall be, during the day, flag R of the Commercial Code at the main, and during the night two lighted lanterns, one over the other, at the fore.

V.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as may be deemed necessary by the Health Officer to prevent the spread of the disease.

VI.—It will be the duty of the Port Officer to facilitate the conveyance to the vessel in quarantine of all supplies of provisions, stores, and other articles required by those on board. These supplies should be placed on the boats of the vessel, to be subsequently removed by members of her crew.

HIGH COURT NOTICE.

Circular order issued by authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

Rule No. 5, dated the 24th June 1884.

Insert the following after clause (a), Rule 86, Chapter V, page 285, Civil Rules and Orders:—

(aa.) Vakils practising in the High Court shall note on their vakalatnamas the names of the Mukhtars from whom the vakalatnamas are received.

General letter No. 10, dated Calcutta, the 19th June 1884.

From—C. S. BAYLE, Esq., Officiating Registrar,

To—All District Judges and the Judicial Commissioner of Chota Nagpore.

I AM directed to forward, for your information and for communication to all Civil Judicial Officers subordinate to you, a copy of a letter, dated the 3rd March last, from the Registrar of the Privy Council, conveying the observations of the Lord President and the Lords of the Judicial Committee regarding the inclusion of unnecessary and redundant matter in the records of cases in which an appeal is preferred to Her Majesty in Council.

2. The Judges direct the special attention of all Civil Judicial Officers to the provisions of Section 141 of the Code of Civil Procedure cited by their Lordships, and desire that the procedure prescribed in that section may be very carefully followed. All documents which, under the provisions of the law, ought not to find a place in the record should invariably be returned immediately on the close of the trial in which they have been produced, and a certificate to the effect that they have been so returned should be appended to the List of Documents filed in the case.

Council Office, Whitehall, the 3rd March 1884.

From—HENRY RERVES, Esq., Registrar, Privy Council,

To—The Registrar of the High Court of Judicature, Calcutta.

I AM directed by the Lord President of the Council and the Lords of the Judicial Committee of the Privy Council to call the attention of the Hon'ble the Judges of the High Court at Fort William in Bengal to the following observations, with the view of suggesting measures to check the insertion of unnecessary matter in the transcripts or printed copies of the Records in Appeals from the Courts of India to Her Majesty in Council:—

These Records, prepared and for the most part printed in India, are frequently encumbered with numerous documents which have neither been proved nor admitted. The insertion of these documents increases the bulk of the Records and the cost of the proceedings; and it appears to their Lordships that sufficient attention has not been paid to the express provisions of the Legislature for the correction of this abuse. These provisions are as follows:—

Act X of 1877, the Civil Procedure Code, directed (Section 59) that if the plaintiff sues upon a document, it or a copy of it shall be filed with the plaint, and any other documents which are to be relied upon in support of the claim are to be entered in a list to be annexed to the plaint. And (Section 138) a document which ought to be produced when the plaint is presented or entered in the list, and is not, shall not without the leave of the Court be received in evidence at the hearing.

Section 138 and the following sections of that Act provided that—

"138. The parties or their pleaders shall bring with them, and have in readiness at the first hearing of the suit, to be produced when called for by the Court, all the documentary evidence of every description in their possession or power on which they intend to rely, and which has not already been filed in Court, and all documents which the Court at any time before such hearing has ordered to be produced.

"140. The Court shall receive the documents respectively produced by the parties at the first hearing, provided that the documents produced by each party be accompanied by an accurate list thereof prepared in such form as the High Court may from time to time direct.

"The Court may at any stage of the suit reject any document which it considers irrelevant or otherwise inadmissible, recording the grounds of such rejection.

"141. No document shall be placed on the record unless it has been proved or admitted in accordance with the law of evidence for the time being in force. Every document so proved or admitted shall be endorsed with the number and title of the suit, the name of the person producing it, and the date on which it was produced. The Judge shall then endorse with his own hand a statement that it was proved against or admitted by (as the case may be) the person against whom it was used. The document shall then be filed as part of the record." These enactments are repeated in the Code of Civil Procedure, No. XIV of 1882, and have now been in force for some years.

It is plain from these sections that it was not intended that the mere filing of a document should make it part of the Record. But it appears that in many of the cases which have been brought by appeal under the consideration of their Lordships, a less strict practice has prevailed. It seems to have been thought that if an exhibit was not rejected it was to be placed on the Record, and the practice has been to endorse it as filed by the pleader of the party who produced it, and make it part of the record, without considering whether it was proved or admitted. Indeed, every document not objected to seems to have been admitted as of course.

In spite of the more exact provisions of the present Code of Procedure, this practice has not been abandoned, and their Lordships are of opinion that measures should be taken to direct the attention of the Courts of First Instance in India to the 141st Section, and to require the Judges of those Courts (except in the case of an appeal upon the ground of the rejection of a document as irrelevant or otherwise inadmissible) not to allow any document

to be placed on the Record unless it has been proved in evidence or admitted, and to state the fact that it has been so proved or admitted by an endorsement under their own hands.

In appeals to Her Majesty in Council from decisions of High Courts in what were formerly called special appeals, but in the Acts of 1877 and 1882 are called second appeals, in which the questions to be decided are entirely questions of law and not of fact, it is desirable that the Record should be confined, as far as possible, to the legal points under appeal, and should not contain redundant evidence on facts not to be brought under the consideration of their Lordships.

By the section 602 of the Civil Procedure Codes of 1877 and 1882, powers are given to exclude from the Record documents which the officer of the Court considers unnecessary, and which the parties have not specifically asked to be included, and such other documents as the High Court may direct to be excluded.

It appears to their Lordships desirable that these powers should be exercised, when the circumstances of the case under appeal admit of it, especially in the case of documents which have not been used or referred to upon the hearing of an appeal before the High Court.

General Letter No. 11, dated Calcutta, the 28th June 1884.

From—C. S. BAYLEY, Esq.,

To—All District Judges.

A CASE has recently been reported to the Judges in which a Munsif was permitted by a District Judge, in anticipation of the sanction of the High Court, to return to duty before the expiry of his leave. As the premature return to duty of an officer on leave may not unfrequently cause considerable inconvenience, both to the Court and to the officer officiating for him, I am directed to point out that permission to a member of the Subordinate Judicial Service to return to duty before the expiry of his leave can be given only by the authority which granted the leave. No such permission should therefore be given by District Judges without the orders of the High Court previously obtained.

noted in the margin,
as Notification No. 58,
dated 29th January
1884.

1. The officers of the Public Works Department, who have charge of the canal, are solely responsible for maintaining it in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Revenue Superintendent, under the supervision of the Collector of the district as Revenue Superintendent, is responsible for the collection of water-rates and miscellaneous revenue accruing to Government from the canal.

3. Water shall not be distributed otherwise than on the application of a lessee, or of a ryot in whose favour a provisional requisition has been issued, as provided for in Rule 16 below. Such application may be made verbally, or in writing, to any Public Works Department officer in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Revenue Superintendent, or one of his subordinates verbally, he should be told to address himself to the officers of the Public Works

Department. If he makes such an application in writing, his petition shall be forwarded direct by the canal revenue officer, to whom it is addressed, to the Public Works Department officer in charge of that part of the canal from which the petitioner's village is supplied.

5. Water will be supplied, as a general rule, only from June to November, and it should be understood that, though the officers in charge of the canal are required to supply water as speedily as possible on the application of lessees, it may not be practicable to supply it without some delay.

6. The following rates will be charged for the supply of water on application, when available, from June to November:—

I.—Under five year leases. { Lift, Re. 1 per acre per annum.
Flow, Re. 1-8 ditto.

II.—Under one year leases. { Lift, Re. 1-10 per acre per annum.
Flow, Rs. 2-8 ditto.

III.—For the supply of water in exceptional cases, when available for winter crops, Re. 1-8 per acre per annum will be charged.

6a. For the unauthorised use of canal water Rs. 5 per acre per annum, or such less sum as may be fixed by the Collector, will be charged.

7. Applications for water leases under section 74 of the Act should be presented to the tehsildar of the division in which the applicant's land lies, and, subject to rules 8, 9, 10, and 11 below, tehsildars are authorised to grant such leases.

8. No village shall be brought under lease for the first time, and no lease shall be renewed for a period exceeding one year, without the consent in writing of the Executive Engineer. Such consent in writing may be taken specially for a single village, or generally for specified tracts, including several villages.

9. Every application for a water-lease shall contain the following particulars:—

- 1.—Name and residence of applicant.
- 2.—Name of pergunnah, mehal, and village in which the land to be irrigated is situated.
- 3.—Total area for the irrigation of which the application is made and its boundaries; and if the lands to be irrigated lie in separate *chaks*, the name of each *chak*.
- 4.—Names of the ryots whose lands are to be irrigated, and the quantity of land held by each.
- 5.—Name of the canal and number of distributary from which water is required.
- 6.—Signature of the applicants.

10. Without the permission of the Collector, no application shall include lands belonging to more than one village, but *ichsilalaida* or other lands lying within the village boundary at the time of survey may be included.

11. Without special orders in writing from the Deputy Revenue Superintendent, no application for a water-lease shall be received unless it includes all the irrigable lands in a village.

12. When a water-lease is granted, a *kabuliyat* shall be taken in a form approved by Government, and a "permit" shall be given to the lessee or lessees in a form similar to that prescribed in schedule C of the Act.

13. On the issue of a "permit" as above, of which the tehsildar shall keep a duplicate, he shall forward a copy of the *kabuliyat* to the Deputy Revenue Superintendent for record, and at the same time he shall forward to the Executive Engineer or Sub-Divisional Officer direct, a requisition requesting him to supply water to the lessee on application. This requisition shall be kept by the officers of the Public Works Department till January 1st next following, and shall then be returned to the Deputy Revenue Superintendent. On the back should be noted the several dates on which the village was supplied with water. A fresh requisition should be issued on or before June 1st, and returned on or before January 1st, each year till the lease expires.

14. When application for a lease is received from a village not previously leased, the tehsildar, before granting a lease, shall satisfy himself by comparison with the survey records, as well as by local enquiry, that the particulars given in the application are correct. For the purpose of comparison with the survey record, the application should be sent through the Deputy Superintendent to the Collector. The tehsildar should also satisfy himself that the Executive Engineer's consent, as required by rule 8, has been obtained.

15. When application is made for the renewal of an expired lease, the tehsildar, before granting a new lease, shall satisfy himself by comparison with his register of *kabuliyats* that the particulars given in the application are correct.

16. Pending the result of the enquiries provided for in the last rule, the tehsildar may, at his discretion, issue a provisional requisition for the supply of water to the area covered by the application.

17. Every *kabuliyat* of a water-lease shall, if possible, be signed by or on behalf of all the cultivators concerned; and if this has not been done, an explanation of the omission should be given in submitting the *kabuliyat* to the Deputy Superintendent for record; but every cultivator accepting water under a lease may be regarded

as having tacitly agreed to it, even if he has not himself signed the *kabuliyat*.

18. When it comes to the knowledge of the Public Works Department officers in charge of the canal, that canal water has been taken without authority, notice shall be sent to the Deputy Revenue Superintendent, accompanied by the following particulars:—

- 1.—Name of village and pergunnah.
- 2.—Number of distributary from which water has been illicitly obtained.
- 3.—Manner in which water has been taken.
- 4.—Abstract of evidence that water has been taken.

A separate notice should be sent for each village irrigated without authority.

19. On receipt of such a notice, the Deputy Revenue Superintendent, after such enquiry as may be necessary, and after hearing any objection which may be raised, shall proceed to assess, at the rate provided in rule 6a, the land irrigated without authority. If in any case he thinks that this rate should not be imposed, he shall report the matter to the Collector for orders.

20. Ordinary water-rates for each financial year fall due on the 1st February.

21. Water-rates imposed under rule 6a, on account of lands irrigated without authority, fall due as soon as the assessment is made, and shall be realized at once.

22. Remission of water-rates may be granted by the Collector on the ground of—

- 1.—Failure to supply water.
- 2.—Damage caused by excess of water due to deficient drainage.

Remissions on any other grounds require the sanction of Government.

23. Yearly leases of canal lands may be granted by the Deputy Superintendent, but no lease for a longer period shall be granted without the special orders of the Collector.

24. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Executive Engineer in charge of the canal, and his written opinion shall form part of the record of the proceedings.

25. The Collector may distribute amongst village *mookhyas*, who agree in writing to assist the Deputy Superintendent in collecting water-rates, and generally in his operations under Act III (B.C.) of 1876, a commission calculated in such manner as he may think fit, provided the total amount paid shall not exceed 6 pies in the rupee on the total water-rates collected during the year. If the payments thus made to *mookhyas* do not amount to 1 pie in the rupee on the total water-rates of any year, the Collector may expend the balance in paying extra collecting establishment.

26. Registers will be kept in the Deputy Superintendent's and tehsildar's offices in forms sanctioned by Government.

27. A copy of the Collector's decision in all cases of remission, and of the Magistrate's decision in all cases of proceedings under section 93 or 94 of the Act, shall be forwarded to the Executive Engineer for information and record in his office.
